Pros: - Okay Music - Funny Texts - Easy Achievements
Cons: - Short - Repetitive - Boring
The game is alright if you are looking for a cheap time waster game. It can get boring while collecting the money so I suggest you use an auto clicker to get 100% completion faster. Overall I would recommend you to buy it when it's 50% off because it isn't the best clicker game.. help me with the cleaning event. 10/10 game would recommend great for the price i reckon anyone would like this game even if you like the worst of games this is probably the best game 10/10 should buy. This is my life now.. Look, I know it's supposed to be bad but, Cookie Clicker is more fun than this. When you buy a new box you don't get any upgrade at all other than an achievement. By bonus I mean faster clicking or more money per click. tldr It sucks so don't buy it.. Short game, easy for achievements.
